

**RFP 22-017  
Pavement Condition Assessment**

**ADDENDUM #1**

Listed below are answers to additional questions that have been submitted regarding RFP # 22-017 - Pavement Condition Assessment.

Questions

1. Has the City performed a similar project in the past? If so, when was the last project cycle completed?

Yes, the City of Powder Springs completed a similar assessment in 2016.

2. Does the City require the use of Laser Crack Measurement System (LCMS) and imaging technology similar to what the Georgia DOT require for their Pavement Condition Assessment?

No, these specific systems are not required but are preferred.

3. Does the City of a GIS street centerline map/file that includes details of the City's street network?

Cobb County produces the GIS street centerline file including the area covered by the City of Powder Springs. The City will provide the file as part of the project.

4. Does the City use any pavement management software applications?

Initial to acknowledge and include with submittal: \_\_\_\_\_

No, the City does not use a pavement management software application.

5. Does the City have a plan-holders list for this RFP that the City can share?

No, a plan-holders list does not exist for this RFP.

This Addendum is issued to modify or interpret the bidding documents. Bidders are hereby instructed that the terms and specifications for the above referenced project are modified, corrected, or/and supplemented as hereinafter described. Bidders are hereby instructed to acknowledge receipt of this Addendum.
